

No virus Active

HAND DISINFECTION STAND

Stationary design stand with foot-operated control for hand sanitation.
Suitable for indoor and outdoor areas.

UNIQUE USER-FRIENDLY DISINFECTION – NovirusActive

Suitable for all spaces, shops, hotels, restaurants, airports, medical facilities, schools, cultural centres, sports grounds, offices, department stores, manufacturing plants and administrative buildings.
Or even your home.

EASY MAINTENANCE AND QUICK CARTRIDGE REPLACEMENT

SPACE FOR 2 CANISTERS (5 LITERS EACH)
INSIDE OF THE STAND

We also offer sanitary gel cartridges. We are a Czech producer of quality cosmetic products.

The new range of our sanitary skin gels is made from top-quality ingredients and leaves your hands clean and gentle. We supply gels in many pleasant scent options.

UP TO 2,500 DOSES PER CARTRIDGE (20 TIMES MORE THAN COMPETITORS' PRODUCTS)

MODERN DESIGN AND LARGE SPACE FOR BRAND

NovirusActive – Comprehensive solution for disinfection of people and areas

No **virus** Active

HAND DISINFECTION STAND

- contactless rinse-free gel dispenser
- foot-operated
- accurate dosing
- cartridge integrated inside the stand
- 2 canisters (5 liters each)
- easy and fast cartridge replacement
- up to 2,500 doses per cartridge (5l)
- mobile stand design with the option of fixing to the floor
- also suitable for outdoor use
- foot-operated option without the need of power supply
- very easy to clean and maintain
- upper part of the stand as an information area

Sanitary gels offered by us differ from our competitors' products mainly because:

- we use 99% anhydrous alcohol with EU denaturation
- we use 99.5% pharmaceutical-grade glycerine
- we use an acrylate-free, ecological thickener with a balanced pH
- we use anti-allergenic fragrances, oils, perfumes
- we add emollients that help hydrate the skin and promote the natural formation of sebum
